Graffiti 101

For many years now I have been shooting graffiti where ever I travel, and I appreciate its' artistic representation.

I don't condone the medium when it is done to vandalize. I simply appreciate the work for its' raw expression to communicate whether good or bad, political or not. Enjoy.

STYL

Blue graffiti on a textured, brownish background. The graffiti consists of stylized, overlapping letters and lines, possibly forming the word "Black".
